

Plascon™

# SAFTEA® OPEN TOP LINER

## NEW! SAFTEA® LINER NOW AVAILABLE IN OPEN- TOP DESIGN

Plascon now offers Saftea® Liner in a new open-top (OT) design for speedy fill and refilling needs. Offering the same quality as our patented sliding lock tea urn liner, the open-top design is ideally suited for operations with high-volume dispensing, requiring frequent refills with added ease and speed. The Saftea® OT Liner is designed to fit the most commonly used urns in use today.

### FOOD SAFETY

It's no secret that teas are prone to mold. Improper cleaning results in bacteria forming inside the urn and spigot which can lead to health risks and foodborne illness.

With Saftea® Liner, the tea never comes in direct contact with the urn or spigot, creating superior sanitation and quality standards for your food service establishment.

### OPERATIONAL EFFICIENCIES

Save time and labor costs since it takes less than a minute to replace a liner, compared to the time it takes a crew member to disassemble, clean, sanitize and reassemble a traditional unlined urn. Additional savings are also gained without the need for cleaning chemicals.

As a bonus, Saftea® Liners actually improve the taste! Your patrons will enjoy fresher, better tasting iced tea, free from the aftertaste of improperly rinsed urns.

BULK QUANTITIES  
AVAILABLE

- IMPROVES TASTE
- SUPERIOR HYGIENE
- INCREASED SALES & PROFITS
- NO SCRUBBING
- NO CLEANING CHEMICALS
- RECYCLABLE  
(remove tube before recycling)

### DRAPE & FILL LINER

The new Saftea® Open Top Liner is quick and easy to use. A pinch-tube spigot replaces the factory supplied spigot, which allow the liner's integrated tube to thread through the faucet opening. This controls the flow to dispense the tea.

Once the tube is inserted, simply drape the liner over the rim of your tea urn,

and fill. Refill as needed over a 24 hour period, then replace with a new liner. You may pour or brew directly into the urn.

**MAX HOLDING TEMP: 185° F.**

Keep all of your iced beverages fresher!

- Iced Teas
- Iced Coffees
- Lemonades
- Fruit Drinks
